EXECUTIVE SUMMARY

Aspiring Software Analyst and Data Analyst with hands-on experience in Generative AI, Data Analysis, and Industry 4.0 technologies gained through internships and industry simulations. Proficient in Python, Java, prompt engineering, and predictive analytics. Certified across multiple platforms including AWS, Deloitte, and Tata. Eager to contribute technical problem-solving and AI-driven insights in a Software Analyst, Data Analyst, or AI/GenAI role.

TECHNICAL SKILLS

Programming Languages:

Python, Java

Tools & Technologies:

ChatGPT, IoT, AWS Cloud, Visual Studio Code

Data & Analytics:

Data Analysis, Data Visualization, Predictive Analytics, Semantic Data Modeling, Data Interpretation

AI & Emerging Technologies:

Generative AI, Prompt Engineering, GenAI Virtual Assistants, Artificial Intelligence Concepts

Business & Strategy:

Strategic Thinking, Decision-Making, Requirements Analysis, Planning

Digital & Marketing:

Social Media Marketing, Content Strategy, Digital Marketing

SOFT SKILLS

Communication & Teamwork | Leadership & Public Speaking | Problem Solving | Attention to Detail | Adaptability | Time Management | Training & Presentation Skills | Multilingual Abilities |

LANGUAGES

English – Full Professional Proficiency | Tamil – Full Professional Proficiency | Telugu – Native / Bilingual Proficiency

PROFESSIONAL EXPERIENCE

Brakes India Private Limited, Chennai

Role: Internship – Production, IT & Automation

June 2025 – July 2025

Responsibilities:

- Worked with Industry 4.0 technologies including IoT, PLC, SCADA, and SAP ERP systems in live manufacturing operations
- Assisted in monitoring automation workflows and industrial networking processes
- Participated in manufacturing data analysis and quality monitoring activities
- Supported predictive maintenance initiatives using smart factory concepts
- Gained practical exposure to embedded systems and automation environments
- Collaborated with technical teams to understand operational efficiency processes
- Contributed to production and IT coordination tasks throughout the internship

Impact:

- Developed hands-on understanding of industrial automation technologies within a live manufacturing environment
- Strengthened analytical and technical knowledge of smart factory operations and predictive maintenance workflows
- Improved understanding of enterprise systems such as SAP ERP and industrial data handling processes

Linked Data Visualization for Semantic Cloud

Role: Project Contributor

Responsibilities:

- Developed a structured data visualization approach for semantic cloud applications
- Transformed raw structured data into interconnected and meaningful data models
- Applied analytical thinking to identify hidden data relationships and insights
- Enabled semantic analysis and intelligent querying methods for enhanced interpretation
- Designed scalable approaches for handling complex structured datasets
- Improved information clarity and interpretability through linked data concepts

Impact:

- Enhanced data interpretability and relationship mapping through semantic modeling techniques
- Strengthened problem-solving and analytical capabilities using structured data frameworks
- Improved scalability and efficiency in handling interconnected information systems

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Engineering

Vel Tech HighTech Dr. Rangarajan Dr. Sakunthala Engineering College, Chennai

Expected: 2027

Higher Secondary & Secondary Education

Lakshmi Garden School, Vellore

Completed: 2023

AWARDS & ACCOMPLISHMENTS

- Completed industry simulations with Accenture, Deloitte, and Tata focused on AI-powered analytics, strategic consulting, and data-driven problem solving
- Certified – Deloitte Data Analytics Job Simulation, Forage (2025)
- Certified – Tata GenAI Powered Data Analytics Simulation, Forage (2025)
- Certified – Generative AI & ChatGPT for Everyone, HCL GUVI (2025)
- Certified – AWS Cloud Practitioner Essentials, Amazon Web Services (2024)
- Completed – TCS iON Career Edge: Young Professional Certification (2025)
- Completed – Social Media Marketing and Digital Content Strategy, LearnTube.ai (2025)
- Conducted structured health and wellness awareness training sessions focusing on nutrition and lifestyle management
- Recognized for leadership, teamwork, and public speaking skills across academic and professional simulation activities
